

THE MATHEMATICAL ASSOCIATION OF WESTERN AUSTRALIA STRATEGIC PLAN

WHAT WE DO

The Mathematical Association of Western Australia (MAWA) is a professional organisation dedicated to promoting the teaching, learning, and appreciation of mathematics in Western Australia. MAWA offers professional development opportunities, resources and curriculum support, networking, and collaboration through events such as the WA Annual Conference and a wide variety of student activities and enrichment that support schools and families.

OUR VISION

A Western Australian community that understands and values mathematics.

OUR MISSION

To provide leadership for improving the quality of mathematics education across Western Australia.

OUR PILLARS

- Memberships and Partnerships
- Student Activities and Engagement
- Services and Resources

OUR PRIORITIES FOR 2024 - 2027

Priority

- Deliver student activities
- Develop and deliver professional learning
- Establish and foster partnerships
- Increase membership
- Maintain governance

How will we get there?

- Understand the needs of mathematics community
- Advocate for mathematics education in WA
- Relevant and accessible professional learning opportunities
- Collaboration with current and future partners
- Regular training on matters of governance

When will we get there?

- **2024 - 2025:** Developing and delivering professional learning to increase our capability.
- **2025 - 2026:** Reviewing and developing quality resources to support Version 9 curriculum.
- **2026 - 2027:** Establishing and fostering partnerships to improve MAWA's reach, student activities and memberships.
- **2024 - 2027:** Maintaining governance including financial and risk management.
